SARAH AND SON AT HIRTLE'S THEATRE

—:O:—

On Friday and Saturday, October 10 and 11 "Sarah and Son" will be shown at Hirtle's Theatre, starring Ruth Chatterton, supported by Frederick Marsh and Phillip De Lacy.

This is one of Mrs Chatterton's latest pictures and is considered as one of her best.

The story is of a mother's love for her baby, who had been kidnapped, and the climb of the moth er as an opera singer. Miss Chatterton plays the part of Sarah, the mother, and Phillip De Lacy is the lost son. This is an all talking picture.

"On With The Show" will be shown, soon. Tis is an all talking, singing, dancing all color picture. Watch the Standard for the dates.

ALBERTA GOVERNMENT ELEVENTH CROP REPORT

—:O:—

Threshing has been seriously delayed by unfavorable weather during the past fortnight. Snow and rain, followed by dull foggy days, made threshing impossible, and resulted in a slight lowering of grade in some districts.

In south eastern Alberta, threshing is almost completed. In the south west and central parts of the Province, from 50 to 75 per cent of wheat is threshed, while in the northern area, and Peace River district, wheat threshing is from 25 to 50 per cent completed. Threshing percentages for oats and barley are about 10 per cent lower than those for wheat, throughout the Province.

Yields have been equal to expectations an provide assurance that the estimate of 120,000,000 bushels of wheat issue by the Dominion Bureau of Statistics, will be realized. The yield of coarse grains in the east central part of the Province is very low. In the south west, fair, and in the northern and Peace River District, very heavy. Many yields of 100 bushels per acre of oats are recorded. Potato and root crops will give excellent returns and the supply will be at least equal to domestic requirements with possibility of some surplus. Sugar Beet harvesting operations were delayed by unfavorable weather, but are now progressing favorably with yield and quality above average. There is also 50 per cent increase in acreage over the previous year.

Pasture is plentiful over the greater part of the Province, and Live Stock are in excellent condition. There are indications that there will be a considerable movement of feeder cattle to those districts where feed is plentiful.

Very little fall plowing has been accomplished to date. In the areas where threshing is most nearly completed, there is insufficient moisture for plowing, and where moisture is sufficient, threshing is demanding the attention of farmers. With continuance of present favorable weather, plowing will proceed rapidly in the near future.

Canadian Club Address On Waterways

—:O:—

Ottawa:— That the St Lawrence Great Lakes waterway scheme is a very live issue in Dominion affairs is shown by the recent decision of the Association of Canadian Clubs, comprising 120 clubs in every section of Canada, to have it included in its itinerary of subjects to be discussed next month.

Following a new plan, addresses are to be delivered by a group of 20 speakers, including barristers, economists and members of university staffs who have made a study of the question, and will be based, it is stated, on an imperial memorandum prepared by the national office. The memorandum will deal with the existing waterway, the proposed improvements, the relation of the economic structure of Canada and the treaty position existing between Canada and the United States.

It was prepared by Graham Spry, secretary of the association, and so arranged that speakers in every section of the Dominion may show the relation of the waterway to the industries of that section.

"The Canadian Club, of course has no opinion one way or the other on the waterway," said Mr Spry. "The executive fell, however, that the association should assume the responsibility of insuring that unbiased information was made available to the membership of the clubs, and the extensive literary is an attempt to fulfill that responsibility."

AEROPLANE PARACHUTE

—:O:—

Detroit, Mich.— A parachute device to bring airplanes safely to the ground in emergency cases, operated successfully in a test conducted here today. The apparatus, carried in a tube beneath the fuselage, lowered a plane from a height of 2,000 feet over Grosse, Ill. airport. The plane went down easily, the pilot giving no attention to the controls. It finally dropped to a tree adding a hazard which those in charge of the test had not contemplated. The plane however, was only slightly damaged and the pilot, Warren Smith, was not hurt.

The apparatus used for a small biplane weighs less than 100 lbs.

Letter To The Editor

—:O:—

Editor, Strathmore Standard:

Dear Sir:

Your issue of the 17th contained two articles of prime importance; the one dealing with the Russian problem and the other expressing the views of the C P R Land Contract Holders Association.

The former taken from the Northwestern Miller refutes itself by its gross exaggeration, whilst the statement presented in your Journal by the Contract Holders Association by its studied moderation deserves the fair consideration of the C P R and the active support of everyone interested in the well being of the Strathmore community.

As one of the earliest settlers in the district I strongly endorse the attitude taken with farm produce selling at its present price in relation to the terms of the contract have become harsh and unconscionable and no useful purpose can be served by expressing the prosperity of present holders and filling their places with new comers.

Many of us have sunk a life's saving in an endeavor to found a home in Canada, the history of the settlement in the Strathmore district proves conclusively that as farmers the late comers have proved no more successful than the earlier ones. Surely the old timers are deserving of some consideration in times like these.

In a period of four years I have twice lost my entire crop by hail.

If the C P R in a similar period had suffered a similar loss an application to the Board of Railway Commissioners probably would have been made for an increase in rates to enable them to maintain their guaranteed profits.

Wheat at 60c per bushel is subject to the same rate as wheat at twice the price.

One thing is certain, conditions are now such as to demand some consideration and I believe to be believe that a company who has thrice changed its contract to meet less urgent conditions will refuse to be at least just in the dealings with the present holders.

Our investments in houses, barns wells, fences, etc., constitute our property. The late Baron Shaughnessy on his death bed gave this advice to his fellow C P R associates. "You have a valuable property, defend it." I believe that advice is applicable to ourselves who have property in our holdings.

Personally my relations with the company have always been amicable until this spring and I believe there will yet be a settlement on broad generous lines and my adherence to the new movement directed to this end is based solely on the fair and pacific presentation of a condition never before paralleled in Western Canada.

E J LOVE, Strathmore.

Mrs Bremner and family left on Monday for Calgary, where they will reside during the winter. Art will attend High School.

W J Hare was a visitor in town last week.

Mr Grayson of Balnree is spending a few days the guest of Mr P Waters.

The Sample Room of the King Edward Hotel presented a very attractive appearance Saturday last when the Ladies of United Church held their Autumn Tea. The room was very artistically decorated with an abundance of Autumn flowers and foliage, combined with festoons of purple and gold crepe paper, while each table was centered with a bouquet of pretty flowers. The Tea was convened by a committee consisting of Mrs Brundage, convener, assisted by Mesdames Nichol, Wallace, Nelson and Wm. J West and Bower. Home Cooking table where choice cakes, etc. were for sale was in charge of Mrs Nelson and Mrs A P Gray. Quite a large number dropped in for a refreshing cup of tea.

Little Mary Riedon celebrated her sixth birthday last Friday with a jolly party. Musical games were first enjoyed after which they all sat down at a large table filled with good things, in the centre of which was the birthday cake decorated with six candles, which produced happy exclamations from the little guests. After they finished eating Mary opened the parcel of presents which had been decorated to resemble a large pumpkin. The children then went outside and engaged in a peanut hunt which was won by Frances Gray, while Dora Milleson captured the trophy for putting the tail on the cat. Among those present were Dora Milleson, Frances Gray, Annie McGregor, Evangeline Moran, Lois Pattemore, Joan and Esther Boissevain, Gladys Field, and Jean Berkeley.

A most successful card party was held in the Memorial Hall Wednesday evening, under the auspices of the Strathmore Ladies Guild. Cards were played at nineteen tables. Fortunate winners of the high scores were in bridge Mrs Ray Melvin and Mr D N Gardiner; while Auction honors fell to Miss Miss G Hughes and Mr Cameron. Winners in "500" resulted in Mrs Tew and Mr Izzard winning the high scores and Mrs Lorna Frank Tew the consolations. After choice refreshments were partaken of, the tables were removed and dancing enjoyed to the wee hours.

R G Pattemore, Mat May and Teeter Giroux have returned from their hunting trip for wild geese in the Coronation district. They report the birds very plentiful and were successful in bagging about twenty. To prove that the local geese are mighty good shots, five birds at one time flew over and they bagged every one of the bunch. While in Coronation they were the guests of the Hon Frank Miller, the genial proprietor of the Royal Crown Hotel and were right royally entertained by Frank who still has a soft spot in his heart for Strathmore and Strathmore boys.

Softball League

—:O:—

This newly organized league has just completed its first week's schedule and keen competition is very evident. The boys put up a lively game and it is a sure bet that the play off will include some of the tighest games.

The standing for the first week is as follows:

Team	P	W	L	D	Total
Christensen	6	5	1	0	5
Crellin	6	3	2	1	3
Gray	6	2	3	1	2

The Councilors discussed the situation in regard to the skating rink and the general opinion was that it would be desirable for the Town to conduct the rink, with their own committee solely in control.

An effort will be made to destroy the weeds and long grass on vacant lots and boulevards and at the same time arrange to thoroughly water the trees before the winter season arrives.

Current accounts amounting to about $120.00 were referred to the finance committee for payment if found correct.

VERY INTERESTING ESSAY ON SCOTLAND

Scotland is a braw wee land on the north of England. It has water nearly all around it. It has a population of about four and one half million, including Mrs Andrew Carnegie. It has a peculiar language of its own, and if one can pronounce it coherently it is an infallible test of sobriety. It possesses considerable mineral wealth, but very little of it finds its way out of the country. Gold has at times been discovered in certain districts as well as in the pockets of certain natives.

The best known exports are Harry Lauder, Peter Fraser and Scotch whiskey, though sufficient of the latter is retained in the country to satisfy the demands of home consumption.

The principal sport in recent years is Winston Churchill.

The national dress of Scotland is the kilt, which is a kind of petticoat. In patient it resembles a chess board, but in cold weather the wearer finds it more like a draft board. It is believed to have been invented because the aboriginals were unable to find trousers big enough to get their feet thru.

The bagpipes provide a wind instrument which is said, when blown, to produce a tune. On many occasions in the history of wars, Scotch regiments have marched to death listening to the strains of the bagpipes, though it is not known whether their willingness to meet the former was inspired to escape the latter.

Scotland has produced many well known men, among them being Robert Burns, believed to have been a poet. It is usually denied that he was born in Battenos. His most famous poems are "Scots Who Have" and "Stop Your Tickling Jock."

In Scotland for a couple to declare themselves man and wife in the presence of witnesses is tantamount to marriage, though there's often a tendency to dispense with the witnesses.

The chief national characteristic is reckless expenditure, a pronounced love for haggis and the honor of having invented the farthing in order that the natives might be liberal in their contributions to the

Mrs Chester Edwards of Majorville and Mrs Jones of Calgary are the guests of Mrs E C Watts this week.

The Bachelors' dance was quite a success. We are glad to note Leonard Aitkens is able to take his place in the Orchestra again, although he is not able to get around without his crutches. His foot is improving but slowly.

Threshing is again delayed owing to continued damp weather.

The minutes read by Secretary Wears were found correct and confirmed.

A communication was read from the Provincial Government stating that under the Mother's Allowance Act $25.00 monthly would be paid to Mrs J V Morse and T M Wears was appointed inspector according to that act.

St Michael's church having paid taxes, following the usual custom, this amount of $23.40 was ordered to be refunded.

An account for $15.00 amount paid to White's Garage for truck to the Namaka fire, had been rendered to the M D Bow Valley and a communication received from that Municipality refusing to re olutio was passed.

Upon motion the following res olution was passed.

In consequence of the M D of Bow Valley refusing to reimburse the Town for what the Council consider a just claim, be it resolved that the Fire Truck be not allowed outside the limits of the Town under any circumstances."

An application from Edith A Dunn for a share of the fire insurance to be placed in non Board Companies was filed.

The secretary reported upon the tax sale recently held when the Tucker property was sold to Geo Smaith and the balance over and above taxes will be applied to the Tucker account.

The Secretary read the list of delinquents in payment of the minimum school tax and where possible work will be given to liquidate the tax and in other cases action will be taken as the time limit Sept. 30 has now expired.

An application will be made to the Government for a share of the money alloted for unemployment relief work, which if successful will make it possible to do some work on the south road and also upon the pipe line.

Councillor Risdon drew the attention to the danger existing at the lake, that in case of an accident no equipment is available to save anyone getting beyond their depth or breaking through the ice.

The Councilors discussed the situation in regard to the skating rink and the general opinion was that it would be desirable for the Town to conduct the rink, with their own committee solely in control.

An effort will be made to destroy the weeds and long grass on vacant lots and boulevards and at the same time arrange to thoroughly water the trees before the winter season arrives.

Current accounts amounting to about $120.00 were referred to the finance committee for payment if found correct.

SPORT NOTES

HANOVER'S BERTHA CHAMPION 3-YEAR OLD TROTTER

—:O:—

The results of the Hambletonian stake, raced at Goshen, clearly gives the title to the Hanover Farm filly Hanover's Bertha, as the champion three-year old of the 1930 season, it was the fifth consecutive victory for the daughter of Peter Volo this season, out of as many starts, her only losing heat the first in the Hambletonian in which she made a break, getting into a jam rounding the first turn. In the next two she was clearly the best of the field of ten and it is highly improbable that anything will happen between this time and the close of the season to change the verdict of the early races.

The only important future engagement for Hanover's Bertha is the Kentucky futurity to be raced at Lexington and it is possible that during the second week of the Trots there she will be started against the watch with a record inside the two minute list in view. Two three year olds, Mr McElwyn which won the 1924 Kentucky futurity, and Spencer, which won that event and the Hambletonian stake in 1925, later took records of 1.59 and three quarters and Tom Berry, trainer and driver of the filly, wishes to give her a record inside the select list.

In winning the Horse Review futurity at the recent Springfield (Ill.) meeting Hanover's Bertha trotted in 2.01 and a quarter which is the world's race record for a three year old trotter, replacing the 2.02 made by Mr McElwyn in winning the Kentucky futurity. It is unfortunate that Main McElwyn the only one of the three year old brigade which had ever shown the ability to make the filly step to her limit, has been off form. At Goshen, his first start since his sickness, he was but a shell of his former self, never being much of a factor in the race.

McGRAW STILL LEADS AS PENNANT WINNER

—:O:—

New York— Although his team was not participated in a World Series since it met defeat at the hands of the Senators in 1924, John McGraw of the Giants still heads the list of major league managers who have won pennants since 1900, the New York manager has a total of ten league championships to his credit, two more than the number credited to Connie Mack of the Athletics.

The late Miller Huggins, who guided the Yankees to six American League pennants and three world's titles, ranks second to Mack in the league race and third among all the major league managers. Two of the pilots are credited with four pennants. They are Frank Chance of the Cubs and Fred Clarke of the Pirates.

The only other manager who has won more than two league titles is the late Hughey Jennings, who guided the Detroit Tigers to three pennants. Two managers on the list have won two pennants with different teams. The late Pat Moran captured the National League honors with the Phillies in 1915 and with the Reds in 1919. Bill McKechnie, who is now in charge of the Braves, won the pennant with the Pirates in 1925 and with the Cardinals in 1928.

The other managers who have won two league titles are Wilbert Robinson of the Robins, Clark Griffith of the White Sox, Bill Carrigan of the Red Sox, Jimmy Collins of the Red Sox and Stanley Harris of the Senators.

Following is the list of pennant winning managers since 1900.

NEW ZEALAND REPLIES

—:O:—

Toronto— There is no occasion for surprise or astonishment over the action of New Zealand in withdrawing the British duties accorded Canadian motor cars. Canada suggested this move and the suggestion was accepted in the spirit in which it was given. If it results in the loss of more than $6,000,000 worth of export trade and the dismissal of thousands of employees, reduces the volume of Canadian automobile production and raises the prices of motor cars proportionately, we can take refuge in the comforting thought that we put the kid on New Zealand butter imports, thereby releasing so much money for export to the United Kingdom and narrowing the market there for possible expansion of Canadian sales. The Globe had no illusions as to where the crusade against New Zealand butter would lead, pointing repeatedly to the great advantage this country had in existing trading relations with the sister Dominion. The motor manufacturers and those who suffer with them can thank the politicians for the results.

Of course the situation could, and can, be worse. Canada sold New Zealand $24,000,000 worth of commodities, chiefly manufactures in the last calendar year, according to a report from Trade Commissioner C M Croft. Imports taken in return were valued at slightly less than $15,000,000. With a loss to the motor car industry of $6,000,000 worth of business, the balance still would be in our favor—provided New Zealand continues to buy from Canada $2,400,000 worth of apparel and textiles, $1,600,000 worth of food stuffs, $2,100,000 worth of metals, metal manufactures and cars, $1,500,000 worth of machinery and machines, $2,500,000 worth of paper and stationery, $600,000 worth of timber, and the other items which go to make up the total bought by our best per capita customer.

There is also the saving provision in the announcement made by New Zealand's Prime Minister that the preferential arrangement on motor cars will be renewed if Canada will reciprocate in a substantial manner. But how it not by buying butter, which represented all but $2,000,000 worth of the 1929 imports? New Zealand has for sale abroad only the products of the soil. Even if Canada diverted all her raw and grease wool imports to New Zealand—which would be at the expense, chiefly, of other parts of the Empire—it would not begin to balance accounts. Imports of other available commodities would be subject to the same objection as butter. Certainly, if a way can be found to retain New Zealand's business it should be done, and it may be assumed that the new Government will give the subject full consideration.

The lesson taught by the development of affairs is one however, which cannot be overlooked. The Globe has pointed out on previous occasions; New Zealand's trading policy is based on the soundness of the British preference without bargaining or haggling. She has become, deliberately, the greatest Empire trader of all the Dominions, and as a result, leads them all in per capita exports. Appreciating the significance of the fact that the United Kingdom has been buying from her Empire exports worth of products yearly or nearly 80 per cent. of her total exports, while her United Kingdom imports in 1929 were valued at $112,000,000, her last Budget was framed on the lines of the Dunning Budget to increase this business still more. Her trade arrangement with Canada resulted in an expansion of Canadian sales in 1929 amounting to $7,500,000, and placed this country next to Great Britain and the United States as a supplier of her manufactured goods. Her last Budget was designed to divert imports from the United States to British countries, and these imports were valued at $46,000,000 last year. Under fair trading policy there was every reason to believe that Canada would have received substantial share of this new business instead of losing $6,000,000 of what was held.

Both Canada and New Zealand have been profiting under the British preference without bargaining. Premier Forbes has shown by his new Budget that he prefers to deal in this way, and will continue to so deal with Great Britain in the true spirit of Empire co-operation. With Canada he is willing to bargain, if this is Canada's policy. Time will disclose the outcome.

MARKET FOR CANADIAN WHEAT ABSOLUTELY NEEDED

Premier Bracken of Manitoba is in Ottawa and while there gave an interview regarding Western conditions, that is well worthy of consideration.

He stated that unemployment relief measures shortly to be put in to operation would do no more than "touch the fringe" of the problem and declaring that, from a Western point of view, it was to be hoped that Hon Richard Bennett, Prime Minister would conclude a trade agreement with Great Britain which would ensure permanent markets for our wheat. Premier John Bracken of Manitoba gave an interview this afternoon following completion of negotiations with the Federal Government in regard to the disposition of the $20,000,000 unemployment relief funds.

We are endeavoring to co-operate with the Federal Government, said Mr. Bracken, in plans to help alleviate the unemployment situation. Of course we do not anticipate the expenditure of public money will do more than touch the fringe of the problem. We cannot lift ourselves by pulling our boot straps.

The expenditure of Macdonald government in England are sufficient proof of this, if proof were needed. Much more fundamental treatment is necessary,"

Asked what he meant by this statement, Mr Bracken went on: "Well, so far as the west is concerned it means a market for our surplus cereals. For 25 years we've been encouraged to increase acreage, until today we are producing seven or eight times the amount of wheat that Canada requires. We are, therefore, at the mercy of foreign markets. Do you realize that our grain crop this year is worth four hundred million less than that of two years ago, and that the net return to Western farmers, after paying the cost of harvesting, threshing and transportation, is less than one-third what it was two years ago. Eastern Canada may not realize it, but the West, is facing the greatest crisis in its history. What we need is a trade agreement with Great Britain and other countries which will ensure markets for our surplus agricultural products. Unless profitable export markets are secured, unemployment will continue, and so will depression and also the abandonment of farms."

Asked if he could see any way out of the difficulties, Mr Bracken replied: "At the moment our hope is that Mr Bennett will be able to make an arrangement with Great Britain which will ensure us a permanent place in her markets."

"What about the tariff and the farmers " he was asked.

"I prefer not to discuss the tariff," he replied, "but in so far as it restricts imports of British goods I am satisfied that we will have to choose between letting in more British goods or still further restricting low prices for Western grains."

As to the immediate future, Mr Bracken was not pessimistic.

"The present situation," he said, "admittedly is difficult, but we have faced serious problems before and weathered them satisfactorily and I have no doubt we will do so again. It will mean that we will all have to tighten our belts and all interests industrial and commercial as well as agricultural, will have to co-operate sympathetically if we are to avoid serious injury to the chief primary industry of Western Canada. We can pull ourselves out of a bad hole if we all work together."

FEED COSTS ANNUALLY $2.43 PER HEN

—:O:—

Ottawa: The ten year average of the cost of feeding laying hens at the Lennoxville Experimental Station of the Dominion Department of Agriculture is $2.43 per hen, which means that with eggs selling at an average of 35 cents per dozen it takes 6.95 dozen or 81 eggs, to pay for the keep of the laying hen, eggs laid in excess of that number being profit.

VANCOUVER GRAIN SHIPMENTS SHOW BIG INCREASE

—:O:—

Vancouver: Grain exports so far this season from the Port of Vancouver are more than a million and a half bushels ahead of the same date last year, according to a report of the Vancouver Board of Harbour Commissioners. The exports to August 28th amounted to 2,627,306 bushels as compared with 829,399 bushels for the corresponding period of last year.

"Why didn't you get married, Thomas " a vicar asked his gardener. "You know Adam was a gardener and he had a wife "

"Yes, sir," replied the gardener, "but he didn't keep his job long after he got her!"

HARD AND GOOD TIMES ARE PSYCHOLOGICAL

T B Macaulay, president of the Sun Life Assurance Company who is recognised as one of the shrewdest observers in connection with financial conditions in Canada is very optimistic regarding the return of improved conditions in Canada, during the next twelve months In an interview in Toronto he presented an economic outlook that may be advantageously passed to the public.

Here are some of the things he said:

The present so-called "hard times" are really psychological. Hard times and boom times are the result of unreasoning pessimism on the one hand and unreasoning optimism on the other. Mob mentality forces prices away be yond true values at one time, and then, stampeded by fear, forces prices away below their true values.

Mr Macaulay already sees signs of the return to normality in our present economic structure. He said that he thinks the evidence of the return to normality will be apparent in the latter part of the winter. True normal conditions will have completely returned thinks Mr Macaulay, in the latter part of 1931 or the early months of 1932.

It may return earlier. it all depends on the acceleration of the return of courage. His own company has built the biggest insurance office building in the British Empire in Montreal in this year of depression. It has also built a hostel for its women employees. It is remodelling its Toronto office. It is encouraging any of its employees who are contemplating the building of homes to start right now. Now is the time they can get any work done to their own best advantage and at the same time help to smash the bogey man of depression that is sitting like an illusory nightmare on top of the business life of the country at present.

Demand for commodities at present low prices is bound to increase. That will add to sales and boost prices to a normal level. Money is accumulating in this period of saving to an extent that it will soon have to break the dam of overcaution and spread like a benign irrigation over the arid fields of business depression and make the economic desert blossom like the rose of prosperity.

HEARD ON THE STREET

An Emporia man's car struck the rear of a car driven by a woman.

"Didn't you see me stick my hand out " the woman asked.

"No, I didn't Miss" he replied.

"Well, if it'd been my leg, you'd have seen it," she replied and drove away.

After the crash, the motorist rushed his wife to the nearest doctor. The physician stuck a thermometer under her tongue and took her to keep silent for five minutes —which she did. As the couple were leaving the office the man lingered a moment and tapped the doctor on the shoulder, confidentially. "Say, Doc." he whispered, "what will you take for that little thing."

"Well," said the Druggist, "as it is, it will be five cents, but if you want anything in it, I won't charge for the bottle."

"I ken," said the Scotchman, "will ye put a cork in it please."

BIG PROFITS FOR HOCKEY TEAM

—:O:—

Boston, Last season was the most successful in the history of Boston hockey. The Boston Bruins Professional Hockey Association, Inc, reveals an increase of $202,317 over a year ago or the equivalent of $67.44 a share on 3,000 no par common shares. Owner Charles F Adams is understood to have cleared away a quarter of a million since obtaining the Boston franchise four years ago. Total receipts for last season are placed at $568,075, which tops the National Hockey League in attendance. Receipts for the 1928-29 season amounted to $371,569. The National League franchise is valued at $50,000 but carried at only $18,039. Player investments are placed at $67,529, a figure which could be eliminated by the sale of several star performers. Working capital in 1929-30 was $433,474, as to $229,600 for the previous year. The 3,000 common shares, which have a book value of $156 a share, are carried at $30. or one cent a share. The only public sale took place at auction more than a year ago when shares were disposed of for $201 per share.

BUSINESS IS GOOD

Every Albertan knows that successful factories mean prosperity to the community in which they are situated. Every Albertan wants to see Alberta developed into an even greater manufacturing province. Possessing all the natural resources necessary to successful manufacturing, there is no reason why this commendable desire should not be abundantly realized in Sunny Alberta.

A factory, however can only be successful when there is a steady and sufficient demand for the products it makes. The people of Alberta must do their part in building the factories of the Province by purchasing, whenever possible, products Made-on-Alberta soil in preference to importations.

FARMERS WANT ALBERTA LIVESTOCK

Many farmers want feeding and breeding Cattle. Livestock is one of the best means by which grain can be marketed. Help to preserve this market by keeping unfinished cattle and breeding stock on Alberta farms.

WHAT HAVE YOU FOR SALE?

If you have cattle for sale, send a list giving full particulars of number, breed, age, condition, etc, to—

Livestock Branch- Dept. of Agriculture PARLIAMENT BLDGS., EDMONTON

DO YOU WISH TO BUY?

Those wishing to buy cattle should write to the above Branch, giving full particulars of their requirements.

"Metis" Dancers for Quebec

From far-off Edmonton, outpost of Canada's wide West, to old Quebec, cradle of her civilization and gateway from Europe under both French and English regimes, a group of men and maidens of mixed French-Indian and Scotch-Indian blood will bring their tribute to the shrine of Terpsichore, when the Dance and Folk Song Festival opens at the Canadian Pacific Railway's Chateau Frontenac hotel, on October 16th, 1930. There are twelve in the party and all proudly claim that their ancestry gives them the prime right to the title of "Canadian". The above drawing by Kathleen Shackleton noted portraitist, made from life shows the beauty resultant from the mingling of the European and Indian stocks. As performers, th Westerners have a varied programme to offer, including toe dancing in moccasins.

Here's *Proof* of the Tire Pudding

THE reasons for the superior *traction* of Goodyear Tires can be demonstrated and proved. So can the superior *elasticity* of the Goodyear carcass. Stretch Goodyear Supertwist Cord and ordinary tire cord on our cord-testing machine and see the far greater *stretch* of Supertwist Cord which offsets the effects of road-shocks. Press the palm of your hand down on the Goodyear All-Weather Tread and note the *pinch* of its grip.

NOW IS THE ACCEPTED TIME

Wheat at 54c a bushel is not very good, but it is a whole lot better than an unpaid subscription and you know subscriptions are a newspaper's wheat crop.

The Standard does not want to appear arbitrary but we will have to adopt a strictly cash in advance plan if subscriptions are not paid more promptly.

Paper, Ink, wages, and other expenses have to be paid every week, hence the Standard must insist on prompt payment.
